

AM

Dear Mayor McCarron,

If I were mayor I would build a swimming pool in the park. I would do this because after games and exercising people would like to come to the pool and cool down. The pool would also be a good idea because who wants to go out of town just for swimming on a really hot day? I sure don't. This pool would be located at the Taneytown Memorial Park and would be for all ages. My second idea would be to make the town cleaner because pollution is not good for our community. I would do this by making a town cleanup day but we would have to have 50 or more volunteers to make this possible. There would be about 5 people on every part of the town cleaning up and together we could make this happen. I hope you consider my ideas.

Sincerely,

Sarah Crouse
